

STUDENT HANDBOOK

Academic Year 2025-2026

WELCOME TO THE BACHELOR OF SCIENCE (HONOURS) IN DENTAL SCIENCE 180 ECTS/EQF level 6

We are pleased that you are considering enrolling in the Bachelor of Science (Honours) in Dental Science at the European Institute for Medical Studies (EIMS).

This programme provides a comprehensive and interdisciplinary approach to dental sciences, equipping students with the scientific knowledge, practical skills, and research expertise needed for success in the field.

Through a well-structured curriculum, you will:

- ✓ Gain in-depth knowledge of key dental and biomedical sciences.
- ✓ Develop practical and analytical skills essential for modern dental healthcare.
- ✓ Prepare for advanced studies, research opportunities, or professional careers in dental science.

 Shaping the Future of Dental Science and Innovation!

ABOUT THIS HANDBOOK

This handbook serves as your roadmap throughout your journey at EIMS.

Inside, you will find:

 **Comprehensive course structure** and learning objectives.

 **Facilities and resources** available to support your studies.

 **Entry requirements** and a simplified application process.

 **Assessment methods** and certification details.

 **Career pathways** upon programme completion.

- For the latest updates and official policies, visit eims.edu.mt.

By following these guidelines, students contribute to a vibrant, respectful, and professional learning environment.

COMMITMENT TO EXCELLENCE

At EIMS, we uphold the highest standards in education and training.

Each programme is:

✂ Carefully structured and regularly reviewed to ensure relevance and impact.

💛 Collaborative, integrating insights from faculty, industry professionals, and global experts.

Our commitment ensures that EIMS graduates are:

✓ Prepared to make a meaningful impact in their field.

✓ Equipped with the skills and confidence to excel in a dynamic healthcare environment.

ABOUT THE COURSE

ABOUT THE COURSE

This programme provides a solid foundation in dental sciences, integrating theoretical knowledge with practical competencies essential for academic and professional success.

- ✓ Develop expertise in core dental principles
- ✓ Gain hands-on labs experience through cutting-edge learning methods
- ✓ Learn from renowned educators and industry professionals

Key Features:

-  **ECTS: 180**
-  **MQF/EQF Level: 6**
-  **Mode of Attendance: Full-time**
-  **Training Location: St. Julians, Malta**
-  **Language of Instruction: English**

Course Overview

-  **Duration:** 3 Years (Total Learning Hours)
-  **Course Code:** EIMSUBDS
-  **Mode of Delivery:** 100% Face-to-face.
-  **Focus Areas:** Biomedical innovation, digital dental technologies, health informatics

PROGRAMME HIGHLIGHTS

 **Interdisciplinary Curriculum:** Integrates dental sciences, biomedical engineering, and health informatics for a modern approach to dental education.

 **Simulation-Based Learning:** Hands-on experience through digital platforms like Labster and Immersify Education.

 **Advanced Modules in Year 3:** Covers Oral Medicine, Pharmacology, Research Methods, and Biomedical Data Analysis.

 **Expert Faculty:** Learn from renowned educators and industry professionals dedicated to academic and professional excellence.

 **Pathways to Advancement:** Graduates can pursue further studies in dental, medical, and healthcare fields across Europe.

Course Content

This programme balances theoretical knowledge with hands-on lab training, ensuring a comprehensive learning experience.

Anatomy and Physiology: Explore the structure and functions of the human body.

Biochemistry: Understand the chemical processes within living organisms.

Microbiology: Study microorganisms and their impact on health.

Dental Materials Science: Learn about the properties and applications of materials used in dentistry.

Introduction to Clinical Practice: Develop fundamental clinical skills under expert supervision.

Entry Requirements

Foundation Degree in Dental Science (120 ECTS, MQF Level 6)

Applicants must meet one of the following:

- ✓ **Italian Students:** High School Diploma (EQF/MQF Level 4) granting access to higher education
- ✓ **International Students:** Equivalent Level 4 qualification
 - Plus English proficiency:
 - IELTS 6.5 GCE Advanced Level Grade C
 - Other recognised qualifications
- ✚ Admission Interview required to verify documents, assess English skills, and confirm readiness for study in Malta.
- ✚ If English communication is insufficient, a foundation English course may be required.

Bachelor of Science (Honours) in Dental Science (180 ECTS, MQF Level 6)

Applicants must meet one of the following:

- ✓ Completion of the Foundation Degree in Dental Science (120 ECTS).
- ✓ Recognition of Prior Learning (RPL) for equivalent dental or science qualifications
 - Must also meet Foundation Degree entry criteria
 - RPL follows EIMS policy (see website).
- ✚ Additional credit may be awarded for First Aid, Health or Biomedical certifications.

APPLICATION PROCEDURE

Step 1: Access the Application Portal

Visit the official website: <https://eims.edu.mt>.

Step 2: Complete the Application Form

Fill out the online application form with accurate details.

Step 3: Submit the Required Documents

Ensure all the following documents are uploaded:

-  Academic transcripts
-  A copy of your ID or passport
-  Proof of English language proficiency

Step 4: Pay the Application Fee

Submit the application fee to finalize your submission.

For assistance or further information, please contact **the Admissions Office** via our website.

FACILITIES AND RESOURCES

At EIMS, we provide a state-of-the-art learning environment with comprehensive resources to support academic excellence.

Fully Equipped Dental Laboratories

Gain hands-on experience with modern dental equipment designed to simulate real-world clinical practices.

Online Learning Platforms

Access interactive materials, recorded lectures, and virtual tools to enhance face-to-face learning.

Academic and Research Resources

Benefit from academic databases, research publications, and reference materials to support your studies.

Student Support Services

Receive personalized academic advising, career counseling, and well-being support to help you succeed.

These resources are designed to enhance your educational journey, empowering you to achieve your academic and professional goals.

ASSESSMENT AND CERTIFICATION

At EIMS, assessments are designed to comprehensively evaluate both theoretical knowledge and practical skills, ensuring students meet the highest academic and professional standards.

 **AF1:** Written exams (MCQs, essays, case studies)

 **AF2:** Practical assessments, projects, oral presentations etc...

 **Final Project/Dissertations:**

- Written thesis (10,000 words)
- VIVA

CAREER PATHWAYS

EIMS graduates are well-prepared to advance in their academic and professional journeys, with pathways including:

Biomedical Researcher

Dental Innovation Specialist

Public Health Analyst

Health Informatics
Professional

Access to Master's and
Doctoral Studies

OUR UNIQUE APPROACH

At (EIMS), we are committed to delivering an exceptional educational experience that prepares students for success in modern dental science. Our unique approach is based on the following principles:

- 1. Small Class Sizes:** A personalized and interactive learning environment that fosters direct engagement with faculty, promoting in-depth discussions and mentorship.
- 2. Student-Centred Learning:** EIMS emphasizes individual academic and professional development, ensuring that every student receives the support and guidance needed to achieve their full potential.
- 3. Dedicated Faculty:** Our educators are experienced professionals and mentors, committed to helping students develop both theoretical knowledge and practical skills in dental science.
- 4. Focus on Excellence:** The curriculum integrates scientific knowledge, hands-on labs training, and innovative methodologies, ensuring students are well-equipped for real-world clinical applications and research opportunities.
- 5. State-of-the-Art Facilities:** Students benefit from fully equipped dental digital labs and cutting-edge digital tools, providing a seamless transition from theory to practice.

WHY CHOOSE EIMS?

EIMS stands out as a leading institution for dental education, offering:

Focus on Digital Innovation

Cutting-edge biomedical technology and digital dental tools enhance learning.

European-Recognised Degree

Accredited and aligned with European higher education standards.

Interdisciplinary Collaboration

Bridging dental sciences, biomedical engineering, and health informatics.

Internationally Recognized Qualifications

Globally respected accreditation, ensuring career mobility and academic progression.

Expert Faculty

Learn from renowned educators and professionals combining academic excellence with real-world expertise.

Personalized Student Support

Tailored academic advising, career guidance, and mentoring for student success.
